Merit Award

Double Up Passion Double Impatiens –

Bodger Botanicals

- Very nice large flower size
- Flower opens more than other varieties
- Good flower quality
- Vigorous
- Requires more PGR in small pot sizes

Culture Information:

Double Up Passion is vigorous and difficult to produce in 4.5 inch containers. The growth habit is well suited for hanging baskets with 4-5 cuttings per basket. To promote even branching, if necessary pinch the cuttings one week after planting.

Fertilizer:

200 ppm of nitrogen with every watering.

Plant Growth Regulators in our trials:

4.5 inch containers - Drench 10 days after planting or pinch with 1.5 ppm Bonzi.

Baskets – Drench 2 weeks after planting or pinch with 1 ppm Bonzi.

All plant growth regulator rates depend on temperature during production. For northern or early southern production, using half of this rate may provide effective control.
