Course Description:
This is an upper-division environmental horticulture course designed to encourage students to have an interest, understanding, and appreciation of Florida’s native flora. Weekly lectures will cover plant nomenclature, effective utilization, and design elements of native plants that are commercially available for landscape use. Web-based topical lectures will be provided from experts who have a range of knowledge in the field. Weekly lab exercises will cover some of best native plants for our area, propagation of native plants, and incorporation of native plants into gardens and landscapes.

Prerequisite:
ORH 3513 (useful but not required)

Class Meeting Time and Location:
Wednesdays (2:00 pm-6:00 pm) Greenhouse complex, PSF5

*Students will be required to attend the scheduled field trips.

*The class may meet at alternate locations as needed such as Mehrhof Gardens, the UF Tree Unit, and the UF Herbarium.

Office Hours:
Please feel free to email the instructor at any time to meet. Office: Mehrhof Hall, Bldg 559, Room 108

Learning Objectives:
At the conclusion of this course, the student will be able to:

1. Identify 50+ species that are native to Florida and used in landscapes
2. Examine the aesthetic and functional value of native plants and how they can be better incorporated into landscapes
3. Characterize underutilized natives using learned taxonomic descriptions, species distinctions among shared genera, herbarium sampling, and photography
4. Associate original plant ecosystems with selection, use, establishment and maintenance of natives in modified landscapes
5. Determine propagation and production practices for natives
6. Distinguish between native and non-native cultivars

**Course Website:**
CANVAS (for lecture print-outs, additional readings, group assignment descriptions, discussions, etc.) [http://elearning.ufl.edu/](http://elearning.ufl.edu/)

Native Landscaping website: [http://irrecenvhort.ifas.ufl.edu/FNL/index.htm](http://irrecenvhort.ifas.ufl.edu/FNL/index.htm)

**Course Textbook:**

*There also will be supplemental reading material available online*

**Other Useful Book References:** *desk copies can be found in the instructor’s office*

Rogers, G.K. 2011. Landscape Plants for South Florida. George Rogers Publishing, Palm Beach Gardens, FL. (Recommended)

**Student Responsibilities:**

*S Attendance:* You are expected to attend all classes and activities.

*S Preparation:* You are responsible for retrieving and/or printing course materials.

*S Plant ID Quizzes:* In order to do well, you will need to spend considerable time studying the live plants and PowerPoints presented, and practicing rote memorization of the scientific and common names. There are no make-up quizzes unless prior approval is granted for extreme circumstances.

*S Handing in written assignments:* Unless otherwise stated, all assignments must be posted in e-learning and/or turned in at the beginning of class on the due date.

*S Late or make-up assignments:* Assignments will be marked down 5 percentage points for each day late. Please remember, homework is assigned to prepare the student for class discussions. If you do not complete the assignments, your participation will suffer.

*S Completion of all assignments:* You must complete all assignments and participate in class in order to pass the course.
Student Evaluation
You will be graded on the accuracy, conciseness, and grammar of your work. Any questions regarding your performance on any assignment are welcome. Grading follows University standards and will be based on the following:

EXAMS
Midterm exam ........................................100pts
Final exam ...........................................100pts

ID QUIZZES
Quiz 1 (plants 1-20) .................................................20pts
Quiz 2 (plants 1-40) .................................................20pts
Quiz 3 (plants 1-50) .................................................40pts

ASSIGNMENTS
Assignment 1- Germination of native seed............................................................10pts
Assignment 2- Small container project...............................................................5pts
Assignment 3- Plant lecture presentation...........................................................10pts
Assignment 4- Guest lecture questions and answers (5).......................................10pts
Assignment 5- Field trip 1 summary report.........................................................5pts

PARTICIPATION
Active attendance and participation in class and lab..............................................5pts
Participation in landscape design and installation .................................................5pts
‘graduate students will be asked to lead discussions and introduce speakers as needed.

Format:
- Hands-on Activities: The use of tools and some outdoor, physical work can be expected. These outdoor activities are indicated in the syllabus so that you can dress appropriately.

- Plant Identification: Students will be exposed to almost 200 different plant species but only quizzed on 50 plants. There will be three cumulative ID exams. On test days, plan on taking a 20 minute quiz followed by other scheduled lab activities. Grading will be designated as follows: 4 points for genus, 4 points for species, 1 point for common name, 1 point for spelling. The quizzes are cumulative, meaning that by the end of the semester the identification test will cover all 50 plants.

- Germination of Native Seed: Each student will germinate one or more flats of seed provided in lab and monitor its growth and development. You will be responsible for the care of the seeded trays and present the seedling performance orally and in written format. Germination should be monitored and recorded once a week and graphed as percent germination over time. This assignment is worth 10 points and will be graded using a rubric.
- **Small Container Project**: Each student will be given a container for greenhouse plants to be transplanted into (you will choose the design and plants for your individual container). You will be responsible for caring for your container garden. This includes watering, fertilizing, weeding, protecting from unusual cold temperatures, etc. You will orally present your container garden to the class, after which you will be able to take it home. This assignment is worth 5 points.

- **Plant Lecture Presentation**: Students will pair in teams of two or three depending on the size of the class. Each group will choose two or three plants from the list of plants that we are growing or have in the landscape and complete a detailed species report that will be presented to the class. The lecture should include: scientific name, common name, family botanical description, native range in Florida and the U.S. when applicable, growth form, size, flower description, culture, tolerances, and use. Information on closely related species, or other available cultivars is encouraged. Presentations may use PowerPoint, video, photography, hands-on activities, or other methods. Presentations should be downloaded in e-learning prior to assignment due date. In addition, a hard copy should be provided to the instructor. This assignment is worth 10 points and will be graded using a rubric.

- **Guest Lecture Questions**: From the guest speakers, students will be asked to submit potential questions that the instructor may select to include on an exam. A total of five questions (with answers) are to be submitted in e-learning from any of the guest lectures. Questions are due 5 days prior to the mid-term or final exam. *If one of your questions is selected, a total of 2 pts will be added to your total exam score*. This assignment is worth 10 points.

- **Field Trip**: During a scheduled class day we will take a field trip to a native plant nursery. Students will summarize the nursery operation in a one page or less report and submit the following week. This assignment is worth 5 points.

- **Landscape Installation Project**: As a group, students will design, install and maintain a section of Mehrhof Gardens. This activity is worth 5 points for participation.

**Grading Policy**

Final grades will be based on the following scale:

<table>
<thead>
<tr>
<th>Percentage Range</th>
<th>Grade</th>
<th>Points Range</th>
</tr>
</thead>
<tbody>
<tr>
<td>93.5-100%</td>
<td>A</td>
<td>309-330 pts</td>
</tr>
<tr>
<td>89.5-93.4%</td>
<td>A-</td>
<td>296-308 pts</td>
</tr>
<tr>
<td>86.5-89.4%</td>

</table>

1. **Class attendance, make-up exams and other work:** Requirements for class attendance and make-up exams, assignments, and other work in this course are consistent with university policies that can be found at: [https://catalog.ufl.edu/uarad/current/regulations/info/attendance.aspx](https://catalog.ufl.edu/uarad/current/regulations/info/attendance.aspx). In the case of extreme circumstances, with approval from the instructor, assignments will be marked down 10% each day they are late.

2. **Accommodations for students with disabilities:** The Disability Resource Center coordinates the needed accommodations of students with disabilities. This includes registering disabilities, recommending academic accommodations within the classroom, accessing special adaptive computer equipment, providing interpretation services and mediating faculty-student disability related issues. Students requesting classroom accommodation must first register with the Dean of Students Office. The Dean of Students Office will provide documentation to the student who must then provide this documentation to the Instructor when requesting accommodation. [www.dso.ufl.edu/drc/](http://www.dso.ufl.edu/drc/)

3. **Textbooks:** Described in syllabus

4. **UF grading policies for assigning grade points:** See [https://catalog.ufl.edu/uarad/current/regulations/info/arades.aspx](https://catalog.ufl.edu/uarad/current/regulations/info/arades.aspx).

5. **Online course evaluation process:** Students are expected to provide feedback on the quality of instruction in this course by completing online evaluations at [https://evaluations.ufl.edu](https://evaluations.ufl.edu). Evaluations are typically open during the last two or three weeks of the semester, but students will be given specific times when they are open. Summary results of these assessments are available to students at [https://evaluations.ufl.edu/results/](https://evaluations.ufl.edu/results/).

6. **Materials and Supplies Fees:** $50

7. **Critical dates for exams or other work:** Critical dates are posted within the Canvas E-Learning system and conform to the general weekly schedule of topics and assignments provided in the tentative lecture schedule.
8. **Academic Integrity**: As a student at the University of Florida, you have committed yourself to uphold the Honor Code, which includes the following pledge: "We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honesty and integrity." You are expected to exhibit behavior consistent with this commitment to the UF academic community, and on all work submitted for credit at the University of Florida, the following pledge is either required or implied: "On my honor, I have neither given nor received unauthorized aid in doing this assignment."

It is assumed that you will complete all work independently in each course unless the instructor provides explicit permission for you to collaborate on course tasks (e.g. assignments, papers, quizzes, exams). Furthermore, as part of your obligation to uphold the Honor Code, you should report any condition that facilitates academic misconduct to appropriate personnel. It is your individual responsibility to know and comply with all university policies and procedures regarding academic integrity and the Student Honor Code. Violations of the Honor Code at the University of Florida will not be tolerated. Violations will be reported to the Dean of Students Office for consideration of disciplinary action. For more information regarding the Student Honor Code, please see: [http://www.dso.ufl.edu/sccr/Drocess/student-conduct-honor-code](http://www.dso.ufl.edu/sccr/Drocess/student-conduct-honor-code).

9. **Campus Helping Resources**: Students experiencing crises or personal problems that interfere with their general well-being are encouraged to utilize the university’s counseling resources. The Counseling & Wellness Center provides confidential counseling services at no cost for currently enrolled students. Resources are available on campus for students having personal problems or lacking clear career or academic goals, which interfere with their academic performance.

- University Counseling & Wellness Center, 3190 Radio Road, 352-392-1575, [www.counseling.ufl.edu](http://www.counseling.ufl.edu)
  - Counseling Services
  - Groups and Workshops
  - Outreach and Consultation
  - Self-Help Library
  - Wellness Coaching
- U Matter We Care, [www.umatter.ufl.edu/](http://www.umatter.ufl.edu/)
- Career Connections Center, First Floor JWRU, 392-1601, [https://career.ufl.edu/](https://career.ufl.edu/).

10. **Software Use**: All faculty, staff and students of the university are required and expected to obey the laws and legal agreements governing software use. Failure to do so can lead to monetary damages and/or criminal penalties for the individual violator. Because such violations are also against university policies and rules, disciplinary action will be taken as appropriate.

11. **Class demeanor**: Common courtesy: Cell phones and other electronic devices may be used to photograph plants during class but must be placed in silent mode. Students who receive or make calls/messages during class will be asked to leave. Students engaging in disruptive behavior (e.g., talking, texting, etc.) will be asked to leave the class. Repeat violations of these rules will result in dismissal from class.
