Nutritional Management of Nursery Crops ORH4256

Instructor Contact Info

Dr. Kimberly Moore

3205 College Ave. Davie FL 33314

954-577-6328

954-475-4125 (fax)

Email: klock@ufl.edu

Office hours: Thursdays from 2-3 pm or upon request

Email/phone messages: students can expect a response within 24 hrs. M-F and within 72 hrs. on weekends. **My preferred way of communicating with students is using email.** I check my UF email frequently every day and on the weekends. If I plan to be out of the office or out of email communication, I will email the class and post an announcement on the class website.

Course Overview

This is an online undergraduate level course presenting techniques for determining, interpreting, and managing the nutritional status of ornamental crops in the greenhouse, nursery, or landscape. Topics that will be covered: water quality, substrate physical and chemical parameters, and irrigation/fertilization practices, meter selection and calibration, water analysis, substrate/soil analysis, report interpretation and writing, diagnosis, and recommendations. Upon successful completion of this course, students will be able to determine, interpret, and adjust water quality; substrate physical parameters; substrate chemical parameters; irrigation practices; fertilization practices.

Course Prerequisites

Junior or senior classification

[\[Top\]](#)

Acceptable Course Participation

This is an online course with weekly lectures and assignments. The week begins on Monday and ends on Sunday. Students are expected to login to the course website at least once a week (see [schedule](#)) to complete the reading assignments and watch the narrated lecture (see [course goals and assignments](#) & [assessment](#)).

All course materials will be available via the Canvas course website. Unless you have an excused absence, students are expected to participate in online discussions and chat room meetings. Requirements for class attendance and make-up exams, assignments, and other work in this course are consistent with university policies that can be found in the online catalog at: <https://catalog.ufl.edu/UGRD/academic-regulations/attendance-policies/>

Students are expected to provide professional and respectful feedback on the quality of instruction in this course by completing course evaluation online via GatorEvals. Guidance on how to give feedback in a professional and respectful manual is available at <https://gatorevals.a.ufl.edu/students/>. Students will be notified when the evaluation period opens, and can complete evaluations through the email they receive from GatorEvals, in their Canvas course menu under GatorEvals, or via <https://ufl.bluera.com/ufl>. Summaries of course evaluation results are available to students at <https://gatorevals.a.ufl.edu/public-results/>.

[\[Top\]](#)

Course Goals and Assignments

Upon successful completion of this course, students will be able to: measure water quality parameters (pH, soluble salts, alkalinity); measure substrate/soil physical parameters (total porosity, air filled porosity and container capacity); measure substrate chemical parameters (pH and soluble salt); select and calibrate meters used in nutritional diagnosis; interpret water analysis reports; interpret soil analysis reports; make recommendations for improving crop growth based on data collected in the field.

November 1, 2022

This course is divided into three modules (see [schedule](#)). Each module consists of four recorded lectures with related reading assignments and a challenge. Each week, students will be responsible for completing the reading assignment, watching the narrated presentation, and completing a discussion post (see [late assignment policy](#)).

Discussion posts: Discussion posts should be well written and address the issue or question being discussed. All posts should be made within in the week assigned. Discussions will be graded on the quality and timeliness of the response (see discussion grading rubric attachment under syllabus tab). Each student is expected to comment on **two classmates' posts**. Discussion posts will be accepted up to four days after the due date but will be marked down 2 points. They are worth 10 points.

Module quiz: The quiz will cover material discussed in the lectures in that module. It is open notes/book. It also is timed. Each quiz is worth 25 points.

Challenge assignments: Students will be given a crop with a nutritional problem as well as other pertinent data (water quality, fertilization and irrigation practice, substrate physical and chemical parameters) and the student will be asked to: 1) determine the nutritional problem, and 2) develop a recommendation or solution for the problem. They are worth 25 points.

Scholar's Ignite: The Scholar's Ignite Video Presentation is an exciting and fun assignment designed to provide an opportunity for you to generate awareness, stimulate thought, and inspire your peers with horticultural topics or ideas through a short 1-slide, 3-minute multimedia presentation. You will be required to select a topic, prepare a presentation, and present/upload your work to your peers. This assignment is like presentations and competitions held at scientific conferences and other academic institutions. This is worth 100 points.

To complete this assignment, you will be responsible for fulfilling the following tasks:

1. Select a presentation topic to research and review. The topic should develop one an idea presented in class or identify a new topic related to plant nutrition; prior approval from your instructor is required.
2. Develop a 1-slide, 3-minute presentation using computer software. Your presentations should rely upon pictures, tables, or graphs to convey your idea(s). Remember that your presentation should be developed for a diverse audience, thus presented information should be comprehensible to individuals without expertise in the subject area.
3. Upload your presentation within Canvas.

You will be graded on the following:

1. Communication style: how well did the presenter communicate the topic or information?
2. Comprehension: was the presenter clear and organized?
3. Inspiration and engagement: did the presentation inspire you?
4. Impact: did the presentation have a strong influence on your knowledge or perception?

November 1, 2022

5. Content: was the presentation content clear and well organized with information pertinent to the subject?

Grades for all assignments will be posted seven days after the student turns them in. If the instructor cannot return the assignment within this time frame, the instructor will notify the student as to when the assignment will be graded. [\[Top\]](#)

Assessment

See [schedule](#) for dates. The week begins on Monday and ends on Sunday. Most discussions are due Wednesday at 5 pm and other assignments need to be completed by the end of each week (Sunday 5 pm, Eastern time zone). When in doubt, please refer to the syllabus for due dates.

The accepted format for all assignments is MS Word files. If there is a malfunction with the class site or computer malfunctions occur, assignments may be emailed or sent via fax. It is the obligation of the student to inform me of such malfunctions immediately.

All grades are based on the number of points earned out of total number [of points](#) * 100 to calculate a percentage.

TOTAL POSSIBLE POINTS & GRADES = 380 points

Points earned/370 pts*100 to calculate a percent

For information on current UF policies for assigning grade points, see

<https://catalog.ufl.edu/UGRD/academic-regulations/grades-grading-policies/>

A	(95-100%)
A-	(90-94%)
B+	(88-89%)
B	(85-87%)
B-	(80-84%)
C+	(78-79%)
C	(75-77%)
C-	(70-74%)
D+	(68-69%)
D	(65-67%)
D-	(60-64%)
E	(0-59%)

Absences and Make-Up Work

Requirements for class attendance and make-up exams, assignments and other work in this course are consistent with university policies that can be found at:

<https://catalog.ufl.edu/UGRD/academic-regulations/attendance-policies/>

[\[Top\]](#)

Academic Honesty

As a student at the University of Florida, you have committed yourself to uphold the Honor Code, which includes the following pledge: ***"We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honor and integrity by abiding by the Honor Code."*** You are expected to exhibit behavior consistent with this commitment to the UF academic community, and on all work submitted for credit at the University of Florida, the following pledge is either required or implied: ***"On my honor, I have neither given nor received unauthorized aid in doing this assignment."***

It is assumed that you will complete all work independently in each course unless the instructor provides explicit permission for you to collaborate on course tasks (e.g. assignments, papers, quizzes, exams). Furthermore, as part of your obligation to uphold the Honor Code, you should report any condition that facilitates academic misconduct to appropriate personnel. It is your individual responsibility to know and comply with all university policies and procedures regarding academic integrity and the Student Honor Code. Violations of the Honor Code at the University of Florida will not be tolerated. Violations will be reported to the Dean of Students Office for consideration of disciplinary action. For more information regarding the Student Honor Code, please see: <http://sccr.dso.ufl.edu/process/studnet-conduct-code/>.

Software Use

All faculty, staff and students at the university are required and expected to obey the laws and legal agreements governing software use. Failure to do so can lead to monetary damages and/or criminal penalties for the individual violator. Because such violations are also against university policies and rules, disciplinary action will be taken as appropriate.

Campus Resources

Health and Wellness

U Matter, We Care: If you or someone you know is in distress, please contact umatter@ufl.edu, 352-392-1575, or visit umatter.ufl.edu/ to refer or report a concern and a team member will reach out to the student in distress.

November 1, 2022

Counseling and Wellness Center: Visit counseling.ufl.edu/ or call 352-392-1575 for information on crisis services as well as non-crisis services.

Student Health Care Center: Call 352-392-1161 for 24/7 information to help you find the care you need or visit shcc.ufl.edu/.

University Police Department: Visit police.ufl.edu/ or call 352-392-1111 (or 9-1-1 for emergencies).

UF Health Shands Emergency Room / Trauma Center: For immediate medical care call 352-733-0111 or go to the emergency room at 1515 SW Archer Road, Gainesville, FL 32608; ufhealth.org/emergency-room-trauma-center.

Academic Resources

E-learning technical support: Contact the UF Computing Help Desk at 352-392-4357 or via e-mail at helpdesk@ufl.edu.

Services for Students with Disabilities

Students with disabilities requesting accommodations should first register with the Disability Resource Center (352-392-8565, www.dso.ufl.edu/drc/) by providing appropriate documentation. Once registered, students will receive an accommodation letter which must be presented to the instructor when requesting accommodation. Students with disabilities should follow this procedure as early as possible in the semester.
